Subject: Fw: Feedback

Hi Chris

Please see below from Sean. From my perspective I was very impressed with communication and programming of the work. Do you know if the rad panels were also installed?

It would be good to catch up at some stage to see where else we could install.

Many thanks

Kate

Hi Kate,

Sorry I have not come back on this,

I have to say I am really impressed with the product, it most definitely has made a change to the drafts in the hotel and rooms are much warmer as a result, the install guy was very pleasant and easy to deal with. All in all a good job I would recommend this for use in a similar circumstance.

Importance: High

Hi Sean

Going into a meeting with colleagues in England about energy efficiency measures. Any feedback positive or negative from guests or staff about quattroseal?

Much appreciated

Kate
